GRAMANN REPORTING, LTD.

OFFENSE SUPPLEMENT or CASE SUMMARY

On Dec. 2, 1984, a "John Doe" investigation was conducted by Judge David JENNINGS, attended by Assistant District Attorney Dan BLINKA, Dets. James Gauger and Thomas Jackelen, David CADLE, a photographer for the Wisconsin Regional Crime Laboratory, and Dr. L.I. JOHNSON, a forensic odontologist, whose office is at 5900 N. Pt. Washington Rd.

After hearing testimony by Assistant District Attorney Daniel BLINKA, Judge JENNINGS ordered the subject, Robert Lee STINSON, who was also present, to allow Dr. L.I. JOHNSON to perform tests on his mouth, which included molds and photographs.

After the court order, Dr. JOHNSON did in fact, take full teeth impressions of Robert Lee STINSON and David CADLE too several photos of the subject's mouth and face.

On Dec. 20, 1984, we received six (6) photos from David CADLE on their Case #R84-2363, and M.P.D. #4071, depicting Robert Lee STINSON's dental pictures and a full photo of his face. These are the photos that were obtained on Dec. 3, 1984.

These items were placed on M.P.D. Inventory #1042315.

On Dec. 28, 1984, Det. Thomas Jackelen received one pail which contained skin tissue from the right breast of the victim, Lone CYCHOSZ, from Medical Examiner Elaine Samuels. Det. Jackelen conveyed this item to Dr. JOHNSON, at 5900 N. Port Washington Rd., and turned it over to Dr. JOHNSON, after placing it on M.P.D. Inventory #1042378.

On Jan. 16, 1985, we received twenty-three (23) items from Dr. JOHNSON, a copy of which is attached, and signed by Det. Jackelen. These included photographs, negatives, wax molds and models of the suspect's teeth. At this time, Dr.

OFFENSE SUPPLEMENT or CASE SUMMARY MURDER M-1752 - IONE CYCHOSZ 1-22-85

PAGE 2

JOHNSON stated that he had examined all of the aforementioned items and that it was his opinion, to a reasonable degree of scientific certainty, that the subject, Robert Lee STINSON, caused the bite marks on the breasts, abdomen, and upper pubic region of Ione CYCHOSZ at or about the time of her death on 11-3-84.

On Jan. 17, 1985, Det. Thomas Jackelen and I, Det. James Gauger, took the aforementioned items to Las Vegas, Nev., where they were viewed by a Dr. Raymond RAWSON of 4121 W. Sahara Dr., Las Vegas, Nev. (876-4992), and after viewing the items, Dr. RAWSON gave a verbal confirmation of Dr. JOHNSON's findings. These items were then returned by us to Dr. JOHNSON.

On Jan. 22, 1985, the subject, Robert Lee STINSON, was arrested at his home and fully advised of his constitutional rights in the presence of his mother, Clara STINSON, and his twin brother, Robert Earl STINSON. Robert Lee STINSON stated that he fully understood his rights and proceeded with us to the Detective Bureau where his Nike brand tennis shoes were taken from him and placed on M.P.D. Inventory #1046548, to be used for comparison purposes at a future date by the Crime Lab.

This report was dictated by Det. James Gauger of the Day Shift.
